FISCAL ANALYSIS

ASSUMPTION

Officials at the **Office of Attorney General** assume that any potential costs arising from this proposal can be absorbed with existing resources.

Officials at the **Office of State Courts Administrator** assume that if there is an impact it would be less than \$100,000.

Oversight assumes Office of State Courts Administrator could implement the proposal with existing resources.

For the purpose of this proposed legislation, officials at the **Office of State Public Defender (SPD)** cannot assume that existing staff will provide competent, effective representation for any new cases arising where indigent persons are charged with the proposed new crime of intentionally filing a fraudulent financing statement or any financing statement with the Secretary of State with the intent to harass or defraud any other person. This offense would be a new Class A misdemeanor. Certain conditions could escalate the offense to a new Class C felony.

While the number of new cases (or cases with increased penalties) may be too few or uncertain to request additional funding for this specific bill, the SPD will continue to request sufficient appropriations to provide effective representation.

Oversight assumes the SPD can absorb the additional caseload that may result from this proposal.

Officials at the **Department of Corrections (DOC)** assume the penalty provision component of this bill resulting in potential fiscal impact for DOC, is for up to a class C felony. Currently, the DOC cannot predict the number of new commitments which may result from the creation of the offense(s) outlined in this proposal. An increase in commitments depends on the utilization by prosecutors and the actual sentences imposed by the court.

If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC will incur a corresponding increase in direct offender cost either through incarceration (FY13 average of \$18.014 per offender, per day, or an annual cost of \$6,575 per inmate) or through supervision provided by the Board of Probation and Parole (FY13 average of \$5.07 per offender, per day or an annual cost of \$1,851 per offender.)

ASSUMPTION (continued)

In summary, supervision by the DOC through probation or incarceration would result in additional unknown costs to the department. Sixteen (16) persons would have to be incarcerated per each fiscal year to exceed \$100,000 annually. Due to the narrow scope of this new crime, it is assumed the impact would be less than \$100,000 per year for the DOC.

Officials from the **Office of the Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Officials at the **St. Louis County** assume there is no fiscal impact from this proposal.

Officials at the Office of Prosecution Services did not respond to **Oversight's** request for fiscal impact.
