FISCAL ANALYSIS

ASSUMPTION

In response to a previous version, officials from the **Office of the Secretary of State (SOS)** assumed many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the Secretary of State's Office for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, we also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what our office can sustain with our core budget. Therefore, we reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

§ 302.067

Officials from the **Department of Revenue (DOR)** assume this new section prohibits the Department from requiring applicants whose source documents have been previously verified from having to present such documents upon application for renewal or replacement of the same driver's license or nondriver's license.

The proposed language within this section includes exceptions to the waiver provisions for applicants: who are not citizens of the United States; in cases where document may have been issued as a result of a fraudulent act and those who are applying for a commercial driver license or commercial driver instruction permit.

OA ITSD

Missouri Electronic Driver License - Central Issuance System will require changes to existing document verification waiver process at a cost of \$1,092.

In summary, DOR assumes a cost of \$12,842 (\$10,640 + \$1,110 + \$1,092) in FY 2015 to provide for the implementation of the changes in this proposal.

Oversight assumes DOR is provided with core funding to handle a certain amount of activity each year. Oversight assumes DOR could absorb the costs related to this proposal. If multiple bills pass which require additional staffing and duties at substantial costs, DOR could request funding through the appropriation process.
