FISCAL ANALYSIS

ASSUMPTION

Officials at the **Department of Economic Development (DED)** assume this proposal designates DED to create a Missouri Capital Exchange program. Section 620.1650 proposes that DED create a website which will allow financing providers to post any available financial products or services that assist Missouri businesses free of charge. DED will only have 90 days to complete this website or it will need to contract with an outside agency. DED assumes the costs of the website would result in a negative impact ranging from \$0 - \$128,000.

Officials at the **Joint Committee on Administrative Rules** assume there is no fiscal impact from this proposal.

In response to the previous version, officials from the **Office of the Secretary of State (SOS)** stated many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Oversight assumes that the Department will be able to absorb the cost of creating the website required by this proposal. Should the Department decide to award a contract for development of the exchange website, the website developer would be responsible for all related costs per the requirements of this proposal. Oversight assumes there is no fiscal impact from this proposed legislation on state or local government funds.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
