FISCAL ANALYSIS

ASSUMPTION

Officials at the **City of Kansas City** assume additional unknown costs if, as a result of this bill, the City needs to conduct crash and violation studies for all intersections within the City (not just highway intersections) where an automated traffic enforcement system is installed. However, the exact amounts cannot be ascertained at this time.

Officials at the **Office of the State Courts Administrator** assume the this proposal exempts violations of traffic laws enforced by automated traffic enforcement systems from the mandatory drivers' licence point system. There may be some impact but there is no way to quantify that currently. Any significant changes will be reflected in future budget requests.

Officials at the **Department of Public Safety - Missouri Highway Patrol**, the **Department of Revenue**, the **Missouri Department of Transportation**, the **Office of the State Public Defender** and the **Office of Prosecution Services** each assume no fiscal impact to their respective agencies from this proposal.

Officials at the **City of Jefferson**, the **Jefferson City Police Department**, **St. Louis County**, **Cole County**, the **Springfield Police Department**, the Columbia Police Department, the **Boone County Sheriff's Department** and the **Eureka Fire Protection District** each assume no fiscal impact to their respective organizations from this proposal.

FISCAL DESCRIPTION

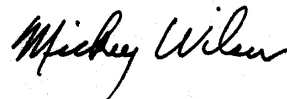

This bill specifies that any conviction for an infraction based solely upon evidence obtained from an automated traffic enforcement system must not result in any points assessed against a person's driving record and a court having jurisdiction over the violation must not forward a record of any plea or finding of guilty of any person in the court for the infraction to the Department of Revenue. A person found to have committed a violation of a county or municipal traffic ordinance or regulation that was charged solely upon evidence obtained from an automated system will be guilty of an infraction punishable by a fine of up to \$135.

The bill requires any jurisdiction utilizing an automated system to comply with the Department of Transportation Engineering Policy Guide 950 Automated Traffic Enforcement as approved by the Missouri Highways and Transportation Commission on January 12, 2011.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
