FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** assume that this legislation increases the per diem for board members on the Board of Architects, Engineers, Land Surveyors and Landscaped Architects by \$25 for each day devoted to the affairs of the board. With the per diem increase, the board will incur increased personal services expenses. The board meets in person, for two days at minimum, four times per year or 8 working days per year. Prior to each board meeting, agendas and supporting documents are sent to each board member to review, which takes 10 hours on average per meeting. With four meetings a year, this equates to an additional 5 working days a year. They also send electronically, a weekly packet of board materials to the board members every Friday for their review taking one hour on average, 7 working days per year. The total number of working days per year calculated per board members is 20 days. There are 15 members currently serving on the Board of Architects, Engineers, Land Surveyors and Landscaped Architects. This will increase the board costs by \$7,500, annually (15 Members X 20 Days X \$25).
