

HB 1190 -- EMERGENCY UTILITY RESPONSE PERMITS

SPONSOR: Kelley (127)

COMMITTEE ACTION: Voted "Do Pass by Consent" by the Committee on Transportation by a vote of 12 to 0.

This bill requires the Department of Transportation to issue emergency utility response permits that allow motor carriers to transport equipment and the infrastructure necessary for repair work immediately following a disaster where utility service has been disrupted. Under exigent circumstances, verbal approval of the operation may be made by the motor carrier compliance supervisor or other designated motor carrier services representative. The motor carriers may operate on state highways and roads at any time on any day to assist utility companies granted a permit.

PROPONENTS: Supporters say that the bill will make it easier and quicker for utilities to restore service to an area after a disaster.

Testifying for the bill were Representative Kelley (127) and Bob Lodestein, Mid Central Contract Services.

OPPONENTS: There was no opposition voiced to the committee.
