

HB 2239 -- COMPRESSED AND LIQUEFIED NATURAL GAS MOTOR FUEL

SPONSOR: Schatz

This bill specifies measurement standards and tax rates for compressed natural gas and liquefied natural gas as a motor fuel and removes them from the provisions regarding alternative fuel decal and tax requirements. The tax on compressed natural gas fuel must be five cents per gasoline gallon equivalent as specified in the bill until December 31, 2019, then 10 cents per equivalent until December 31, 2024, and then 15 cents per equivalent thereafter.

The tax on liquefied natural gas fuel must be five cents per diesel gallon equivalent as specified in the bill until December 31, 2019, then 10 cents per equivalent until December 31, 2024, and then 15 cents per equivalent thereafter.
