FISCAL ANALYSIS

ASSUMPTION

Officials from the **Kansas City Public School District** estimate a fiscal impact of less than \$5,000 as a result of this proposal.

Officials from the **Riverview Gardens School District** assume the proposal will increase the cost of the annual audit by approximately \$3,000.

Officials from the **Everton R-3 School District** assume a cost of \$2,000 to implement the requirements of the proposal.

Officials from the **Special School District (SSD)** assume the proposed legislation would cost SSD several thousand dollars for the cost of the newspaper advertisement and the additional time to aggregate the data.

Officials from the **Malta Bend Public School District** assume the proposal will have no fiscal impact on their organization.

Officials from the **Office of the State Auditor** and the **Department of Elementary and Secondary Education** each assume the proposal will have no fiscal impact on their respective organizations.

Oversight received responses from several school districts indicating a cost, but not all school districts were able to respond and provide a detailed cost estimate. Oversight assumes most school districts would have a fiscal impact from this proposal and therefore will indicate an aggregate cost greater than \$100,000 to local school districts.

FISCAL DESCRIPTION (continued)

A public meeting must be held to present the results of any audit examination performed, with time allocated for public comment and notice of the meeting must be published in the local newspaper at least two weeks prior to the meeting.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
