

COMMITTEE ON LEGISLATIVE RESEARCH  
OVERSIGHT DIVISION

**FISCAL NOTE**

L.R. No.: 4792-01  
Bill No.: HB 2190  
Subject: Business and Commerce; Revenue, Department of; Government; Taxation and  
Revenue - General  
Type: Original  
Date: February 2, 2016

---

Bill Summary: This proposal establishes procedures that allow certain businesses to remit one monthly payment to the Department of Revenue for taxes and fees owed to multiple jurisdictions.

**FISCAL SUMMARY**

<b>ESTIMATED NET EFFECT ON GENERAL REVENUE FUND</b>				
FUND AFFECTED	FY 2017	FY 2018	FY 2019	Fully Implemented
General Revenue	\$0	\$0	(\$402,685)	\$240,218 to \$1,504,574
<b>Total Estimated Net Effect on General Revenue *</b>	<b>\$0</b>	<b>\$0</b>	<b>(\$402,685)</b>	<b>\$240,218 to \$1,504,574</b>

\* The proposal would be fully implemented in FY 2022.

<b>ESTIMATED NET EFFECT ON OTHER STATE FUNDS</b>				
FUND AFFECTED	FY 2017	FY 2018	FY 2019	Fully Implemented
<b>Total Estimated Net Effect on <u>Other</u> State Funds</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>

Numbers within parentheses: ( ) indicate costs or losses.

This fiscal note contains 11 pages.

<b>ESTIMATED NET EFFECT ON FEDERAL FUNDS</b>				
FUND AFFECTED	FY 2017	FY 2018	FY 2019	Fully Implemented
<b>Total Estimated Net Effect on <u>All</u> Federal Funds</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>

<b>ESTIMATED NET EFFECT ON FULL TIME EQUIVALENT (FTE)</b>				
FUND AFFECTED	FY 2017	FY 2018	FY 2019	Fully Implemented
General Revenue	0 FTE	0 FTE	2 FTE	15 FTE
<b>Total Estimated Net Effect on FTE</b>	<b>0 FTE</b>	<b>0 FTE</b>	<b>2 FTE</b>	<b>15 FTE</b>

☒ Estimated Net Effect (expenditures or reduced revenues) expected to exceed \$100,000 in any of the three fiscal years after implementation of the act.

<b>ESTIMATED NET EFFECT ON LOCAL FUNDS</b>				
FUND AFFECTED	FY 2017	FY 2018	FY 2019	Fully Implemented
<b>Local Government</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>	<b>\$0</b>

## FISCAL ANALYSIS

### ASSUMPTION

**Oversight** was unable to receive some of the agency responses in a timely manner due to the short fiscal note request time. Oversight has presented this fiscal note on the best current information that we have or on prior year information regarding a similar bill. Upon the receipt of agency responses, Oversight will review to determine if an updated fiscal note should be prepared and seek the necessary approval of the chairperson of the Joint Committee on Legislative Research to publish a new fiscal note.

Officials from the **Department of Revenue (DOR)** noted this proposal would require DOR to implement a system that allows qualifying businesses to pay local taxes, fees, charges, or assessments by making one payment per month to the Department. DOR would be required to pay the assessing entity the amount remitted within 15 days after the receipt of the funds from the qualifying business. The proposal would allow the Department to collect a fee from the qualifying business of up to one percent of the amount remitted by the business.

DOR estimates that there are approximately 2,500 businesses that may qualify for this legislation.

In the first year, DOR must accept the first 25 qualifying businesses that apply. In the second year, DOR must accept the first 100 qualifying businesses that apply. Beginning in the third year and every year thereafter, the Department must accept all qualifying businesses that apply.

A business which pays any tax, fee, charge, or assessment in excess of \$50,000 to 25 or more local assessing entities would qualify to pay one transaction per month to DOR, and DOR officials assume the provisions of this legislation would require a substantial increase in personnel, equipment, and recurring expenses to implement and maintain the program.

ASSUMPTION (continued)

Administrative impact

DOR officials assume their organization would develop a new section within the Division of Taxation to implement this legislation, and that section would include:

One Revenue Band Manager 2 (\$62,664) to manage the section,  
Three (3) Revenue Band Managers 1 (\$52,092) to oversee the operations of the section,  
Six Section Supervisors (\$41,172) to manage unit leaders,  
Twelve Revenue Processing Technicians III (\$32,628) to act as Unit Leaders providing supervision for the Revenue Processing Technicians,  
Eighty (80) Revenue Processing Technicians I (\$26,652) to conduct the daily operations of the section.

DOR officials assume there would be substantial one-time costs to set up the program.

1. Office construction for band managers
2. Cubicle construction for all other personnel
3. Purchase of chair, phones, calculators, computers, etc.
4. ITSD-one time system costs

DOR officials also provided an estimate of potential recurring expense and equipment items.

1. Standard office supplies for daily operation
2. Recurring telephone charges
3. Office space

**DOR** officials stated there is insufficient space in the Harry S Truman State Office Building allocated to the Department; therefore, the Department would be required to lease space in the Jefferson City area at a rate of \$17 per square foot. Based on 2007 Statewide Space Standards, the Department would require approximately 7,282 square feet to accommodate the DOR's estimate of full-time equivalent personnel to implement the program.

The DOR estimate of cost to implement this proposal included 102 additional employees and the total including salaries, benefits, and equipment and expense totaled \$915,418 for FY 2019, \$1,905,180 for FY 2020, and \$5,626,120 when fully implemented.

ASSUMPTION (continued)

**Oversight** has no independent information regarding the number or size of businesses which might be enrolled in this program, but notes the Department of Revenue (DOR) provided additional information in response to similar language in another proposal. DOR officials have stated that the program could be more easily implemented in FY 2019 on the assumption that the Integrated Revenue System would be implemented by that time and could provide the necessary processing capability.

**Oversight** notes that virtually all of the information required to set up the billings and payments for the system would be provided by the participating businesses - the Department of Revenue would only have available information on taxes they currently collect. Although other state agencies may provide information on taxes and fees they collect from businesses, information regarding local sales taxes and fees would of necessity be provided by the businesses. Therefore, Oversight assumes the DOR estimate of personnel required to implement the proposal may be overstated.

**Oversight** will assume for fiscal note purposes that DOR could implement this proposal with two additional employees initially and fifteen employees when it is fully implemented. If the additional workload for DOR staff resulting from this proposal is significantly greater than anticipated, or if multiple proposals are implemented that significantly increase the DOR workload, resources could be requested through the budget process.

**Oversight** will provide an estimate of the potential fiscal impact of this proposal based on the information above.

**Oversight** will assume, for fiscal note purposes only, the Department of Revenue would have the maximum authorized 25 businesses enrolled in the program as of January 1, 2019, and one of them would be a large employer while the other 24 would be mid-sized employers.

The one large employer would be remitting approximately \$650,000 per month or  $(\$650,000 \times 12) = \$7,800,000$  per year to 400 taxing entities.

The 24 mid-sized employers would each be remitting \$30,000 per month  $(24 \times \$30,000 \times 12) = \$8,640,000$  per year. The number of taxing entities could be less than  $(24 \times 57) = 1,368$  due to potential overlap among businesses but for the purposes of this example, Oversight will assume there would be 1,368 individual taxing entities.

The 1% fee for processing the payments on behalf of the 25 businesses would be  $((\$7,800,000 + \$8,640,000) \times 1\%) = \$164,400$ .

HO::LR:OD

ASSUMPTION (continued)

The Department of Revenue would be processing  $(12 \times 400) = 4,800$  payments per year for the large employer, and  $(12 \times 1,368) = 16,416$  payments for the mid-sized employers.

**DOR** officials have provided printing and mailing information on other proposals indicating that their cost of printing and mailing is \$0.555 per item; therefore, the envelope, printing, and postage for the payments would be  $((4,800 + 16,416) = 21,216 \text{ payments}) \times \$0.555 = \$11,775$ .

Oversight last year asked the At our request, officials from the **Office of the state Treasurer (STO)** to provide information regarding the cost of processing payment transactions. STO officer stated that the cost of printing paper checks was \$0.0591 and the cost of ACH (electronic payment) transactions was \$.02 per item.

**Oversight** assumes the STO cost to process payments under this program would initially be paper-based, and might eventually be migrated to an ACH system as the program is fully implemented. For fiscal note purposes, however, Oversight will include the STO cost of \$0.0591 per payment.

The processing cost for the first year payments would be  $(21,216 \times \$0.0591) = \$1,254$ .

**Oversight** notes the program, as amended, would be implemented beginning January 1, 2018, and will include six months program activity and DOR costs, as adjusted, for this program in FY 2018:

- \* DOR processing fee  $(\$164,400 \times 6/12) = \$82,200$
- \* DOR mailing cost  $(\$11,775 \times 6/12) = \$5,888$
- \* STO processing cost  $(\$1,254 \times 6/12) = \$627$

**Oversight** assumes that in the second year of the program beginning January 1, 2020, DOR could have an additional 100 businesses enrolled in the program, for a total of one hundred twenty-five businesses. The additional businesses might include one additional large employer and an additional 99 medium sized employers.

The two large employers would be remitting \$15,600,000 per year for 9,600 payments to 800 taxing entities, and the 123 medium employers would be remitting \$44,280,000 per year for 84,132 payments to  $(123 \times 57) = 7,011$  taxing entities.

The 1% fee for processing the payments on behalf of the 125 businesses would be  $((\$15,600,000 + \$44,280,000) = \$59,880,000 \times 1\%) = \$598,800$ .

HO::LR:OD

ASSUMPTION (continued)

The DOR mailing cost for the  $((9,600 + 84,132) = 93,732 \times \$0.555)$  payments at \$.555 would be \$52,021 and the processing cost for those payments would be  $(93,272 \times \$0.0591) = \$5,512$ .

**Oversight** will also assume for fiscal note purposes the Department of Revenue could have from ten percent to twenty-five percent of the estimated 2,500 eligible businesses enrolled when the program is fully implemented. The amounts calculated will be shown in the following table.

Participation rate	Ten percent	Twenty-five percent
Large employers	3	4
Medium employers	247	621
Total employers	250	625
Payments - large employers	14,400	19,200
Payments - medium employers	168,948	424,764
Total payments	183,348	443,964
Amount - large employers	\$23,400,000	\$31,200,000
Amount - medium employers	\$88,920,000	\$223,560,000
Total payments	\$112,320,000	\$254,760,000
DOR 1% fee	\$1,123,200	\$2,547,600
DOR mailing cost	\$101,758	\$246,400
STO processing cost	\$10,836	\$26,238
Processing and mailing	\$112,594	\$272,638

ASSUMPTION (continued)

**Oversight** will indicate fiscal impact for the fully implemented program in a range from the amounts calculated at 10% to the amounts calculated at 25%.

**Oversight** notes that a significant part of the 1% cost reimbursement for DOR in this proposal would be withheld from local government fees and taxes due from the participating businesses. Although there could be a potential reduction in local government administrative costs to the local governments from the DOR payment processing, Oversight will indicate an unknown amount of revenue reduction to local governments in this fiscal note.

In a similar proposal (HB 339, 2015) officials from the **Office of Administration-Division of Budget and Planning (B&P)** noted this proposal would require the Department of Revenue (DOR) to administer reoccurring taxes, fees, charges or assessments for requesting businesses. DOR would be allowed to charge a fee up to 1% of the amount remitted. B&P officials stated the fees would have no impact on Total State Revenues as the fee would be a cost reimbursement; however, the 1% fee would impact the calculation required under Section 18(e) of the state constitution by the amount charged.

**Oversight** will include an unknown positive impact from the 1% fee in this fiscal note.

B&P officials assume the amount is unknown as it would be dependent on how many businesses elect to have DOR administer their reoccurring payments and the amount of those payments. B&P officials deferred to DOR for additional information on the impact and on any administrative costs.

**DOR** officials also provided an estimate of the IT cost to implement this proposal of \$300,429 based on 4,006 hours of programming at the current state contract rate of \$75.

**Oversight** will include the DOR estimate of IT cost in this fiscal note.

Officials from the **Office of the Secretary of State (SOS)** assume many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the Secretary of State's Office for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, we also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be greater

ASSUMPTION (continued)

than our office can sustain with our core budget. Therefore, we reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

**Oversight** assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

In a similar proposal (HB 339, 2015) officials from the **Joint Committee on Administrative Rules** assume this proposal would not have a fiscal impact to their organization in excess of existing resources.

<u>FISCAL IMPACT - State Government</u>	FY 2017	FY 2018	FY 2019 (6 Mo)	Fully Implemented
<b>GENERAL REVENUE FUND</b>				
<u>Additional revenue - DOR</u>

	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>	<u>\$0</u>

HO::LR:OD

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

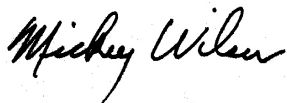

FISCAL DESCRIPTION

The proposed legislation would require the Department of Revenue to create a system to allow a business to remit one payment per month to the department for a tax, fee, charge, or assessment if the total amount is more than \$50,000 and is owed to at least 25 assessing entities. The department would be required to pay the assessing entities no later than 15 days after receipt of the payment and could collect an administrative charge from the business up to 1% of the amount remitted.

This legislation is not federally mandated, would not duplicate any other program. It would, however, require additional capital improvements or rental space.
