Officials from the **Department of Public Safety - Division of Fire Safety** state they are the state authority of elevator safety, including stairway inclined lifts in the state of Missouri. As such, the lift in the church listed in this legislation falls under the purview of the Division. The exemption would only very minimally impact the Division from a fiscal point of view.

No direct fiscal impact to small businesses would be expected as a result of this proposal. Also, this legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
