Policies shall treat **all** students equally and shall not contain specific lists of protected classes of students who are to receive special treatment. Policies may include age-appropriate differences for schools based on the grade levels at the school. Each such policy shall contain a statement of the consequences of bullying.

25 **been subject to bullying, or has received a report of bullying from a student. The policy**  
26 **shall require a district employee who witnesses an incident of bullying or has received**  
27 **reliable information that an incident of bullying has occurred to report the incident to the**  
28 **district's designated individual at the school within two school days of the employee**  
29 **witnessing or receiving the reliable information regarding the incident. The policy shall**  
30 **require that the district maintain records of all incidents of bullying and their resolution;**

53 training school employees and volunteers who have significant contact with students in the  
54 requirements of the policy, including, at a minimum, the following statements:

55           (a) The school district shall provide information and appropriate training to the  
56 school district staff who have significant contact with students regarding the policy;

57           (b) The school district shall give annual notice of the policy to students, parents or

59           (c) The school district shall provide education and information to students  
60 regarding bullying, including information regarding the school district policy prohibiting  
61 bullying, the harmful effects of bullying, and other applicable initiatives to prevent  
62 bullying, including student peer-to-peer initiatives to provide accountability and policy  
63 enforcement for those found to have engaged in bullying, reprisal, or retaliation against  
64 any person who reports an act of bullying;

65           (d) The administration of the school district shall instruct its school counselors,  
66 school social workers, licensed social workers, mental health professionals, and school  
67 psychologists to educate students who are victims of bullying on techniques for students  
68 to overcome bullying's negative effects. Such techniques shall include, but not be limited  
69 to, cultivating the student's self-worth and self-esteem; teaching the student to defend  
70 himself or herself assertively and effectively; helping the student develop social skills; and  
71 encouraging the student to develop an internal locus of control. The provisions of this  
72 paragraph shall not be construed to contradict or limit any other provision of this section;  
73 and

74           (e) The administration of the school district shall implement programs and other  
75 initiatives to address bullying, to respond to such conduct in a manner that does not  
76 stigmatize the victim, and to make resources or referrals available to victims of bullying.

77           5. Notwithstanding any other provision of law to the contrary, any school district  
78 may subject any student to discipline for cyberbullying. A school district may discipline  
79 any student for cyberbullying to the greatest extent allowed by law. The district shall have  
80 jurisdiction to prohibit cyberbullying that originates on a school's campus or at a district  
81 activity if the electronic communication was made using the school's technological  
82 resources, if there is a sufficient nexus to the educational environment, or if the electronic  
83 communication was made on the school's campus or at a district activity using the  
84 student's own personal technological resources. The district shall have jurisdiction to  
85 prohibit cyberbullying that originates off the school's campus if:

86           (1) It was reasonably foreseeable that the electronic communication would reach  
87 the school's campus; or

88           (2) There is a sufficient nexus between the electronic communication and the school  
89 that includes, but is not limited to, speech that is directed at a school-specific audience, or  
90 the speech was brought onto or accessed on the school campus, even if it was not the  
91 student in question who did so. The district may also prohibit cyberbullying that occurs  
92 outside of the district to the greatest extent allowed by law including, but not limited to,  
93 situations in which the cyberbullying negatively impacts the educational environment or  
94 constitutes a true threat. Even in situations where the district does not have legal authority  
95 to discipline a student, the district may contact law enforcement and take other  
96 appropriate actions to protect students and clarify district expectations.

97           6. Each district shall annually review its antibullying policy and revise it as needed.  
98 The district's school board shall receive input from school personnel, students, and  
99 administrators when reviewing and revising the policy.

100           7. Each district shall develop a method to keep track of any correspondence  
101 between individuals and the district or any school in the district regarding an incident of  
102 bullying. Such correspondence shall be a closed record under chapter 610.

103           8. Each district shall annually report to the department of elementary and  
104 secondary education the number of confirmed reported bullying incidents in the district  
105 at the school level and the district level and any action taken in response to an incident of  
106 bullying including, but not limited to, expulsions and suspensions for each school in the  
107 district. No district shall release any confidential information not authorized by state or  
108 federal law for public release. The department of elementary and secondary education  
109 shall post this information on its internet website within thirty days of receiving it but shall  
110 ensure that no personally identifiable information is posted.

111           9. Notwithstanding the provisions of this section, so long as a school district has an  
112 antibullying policy or policies which were in effect before August 28, 2016, a school district  
113 shall not be required to implement or adhere to subsections 2 through 8 of this section. No  
114 changes shall be made to a district's antibullying policy or policies unless the local school  
115 board of the district approves such changes through a majority vote of the board.

170.047. 1. Beginning in the 2017-18 school year, any licensed educator may  
2 annually complete up to two hours of training or professional development in youth suicide  
3 awareness and prevention as part of the professional development hours required for state  
4 board of education certification.

5           2. The department of elementary and secondary education shall develop guidelines  
6 suitable for training or professional development in youth suicide awareness and  
7 prevention. The department shall develop materials that may be used for such training or  
8 professional development.

9           3. For purposes of this section, the term "licensed educator" means any teacher  
10 with a certificate of license to teach issued by the state board of education or any other  
11 educator or administrator required to maintain a professional license issued by the state  
12 board of education.

13           4. The department of elementary and secondary education may promulgate rules  
14 and regulations to implement this section.

15           5. Any rule or portion of a rule, as that term is defined in section 536.010, that is  
16 created under the authority delegated in this section shall become effective only if it  
17 complies with and is subject to all of the provisions of chapter 536 and, if applicable,  
18 section 536.028. This section and chapter 536 are nonseverable, and if any of the powers  
19 vested with the general assembly pursuant to chapter 536 to review, to delay the effective  
20 date, or to disapprove and annul a rule are subsequently held unconstitutional, then the  
21 grant of rulemaking authority and any rule proposed or adopted after August 28, 2016,  
22 shall be invalid and void.

          170.048. 1. By July 1, 2018, each district shall adopt a policy for youth suicide  
2 awareness and prevention, including the training and education of district employees.

3           2. Each district's policy shall address, but need not be limited to, the following:

- 4           (1) Strategies that can help identify students who are at possible risk of suicide;  
5           (2) Strategies and protocols for helping students at possible risk of suicide; and  
6           (3) Protocols for responding to a suicide death.

7           3. By July 1, 2017, the department of elementary and secondary education shall  
8 develop a model policy that districts may adopt. When developing the model policy, the  
9 department shall cooperate, consult with, and seek input from organizations that have  
10 expertise in youth suicide awareness and prevention. By July 1, 2021, and at least every  
11 three years thereafter, the department shall request information and seek feedback from  
12 districts on their experience with the policy for youth suicide awareness and prevention.  
13 The department shall review this information and may use it to adapt the department's  
14 model policy. The department shall post any information on its website that it has received  
15 from districts that it deems relevant. The department shall not post any confidential  
16 information or any information that personally identifies any student or school employee.
