

HB 1583 -- BULLYING IN SCHOOLS

SPONSOR: Allen

This bill modifies provisions relating to student safety.

SCHOOL DISTRICT ANTIBULLYING POLICIES

This act modifies the requirements for school anti-bullying policies. The definition of "bullying" is modified to include intimidation or harassment that substantially interferes with the educational performance, opportunities, or benefits of any student without exception, or that substantially disrupts the orderly operation of the school. Bullying by students is prohibited on school property, at school functions, or on school buses. Cyberbullying is defined in the act.

This act requires that antibullying policies treat all students equally.

Each school district's antibullying policy must be included in the student handbook, as specified in the bill. School district administrations must instruct their school counselors and school psychologists to educate students who are victims of bullying on techniques to overcome the negative effects of bullying. School district administrations must implement programs and other initiatives to prevent bullying, respond to such conduct so as to not stigmatize a victim, and to make resources or referrals available to victims of bullying.

Any school district may subject a student to discipline for cyberbullying. The district will have jurisdiction to prohibit cyberbullying that originates off the school's campus if it was reasonably foreseeable that the electronic communication would reach the school's campus or there is a sufficient nexus between the electronic communication and the school, as described in the act. A district may also prohibit cyberbullying that occurs outside the district to the greatest extent allowed by law, as described in the act. A district may contact law enforcement and take other appropriate actions to protect students and clarify district expectations.

Each district must annually review its antibullying policy and revise as necessary.

Each district must report the number of confirmed reported bullying incidents in the district and each school to the Department of Elementary and Secondary Education. The Department must post this information on its website but must not release any confidential information.

YOUTH SUICIDE AWARENESS AND PREVENTION (SECTION 170.047, RSMo)

This bill allows, beginning in the 2017-18 school year, any licensed educator to annually complete up to two hours of training or professional development in youth suicide awareness and prevention as part of the professional development hours required for State Board of Education certification.

The bill requires the Department of Elementary and Secondary Education (DESE) to develop guidelines suitable for this training.

By July 1, 2018, each district must adopt a policy, which must address strategies that can help identify students who are at possible risk of suicide.

SECTION 170.048

By July 1, 2017, the Department of Elementary and Secondary Education must develop a model policy that districts may adopt. By July 1, 2021, and at least every three years after, DESE must request information and seek feedback from districts on their experience with the policy for youth suicide awareness and prevention and review this information. This bill is similar to HB 458 (2015).
