

HB 2479 -- STUDENTS' EXCUSED ABSENCES

SPONSOR: Rowland (155)

This bill repeals the requirement that certain excused absences be allowed pursuant to the school district's approval and upon the approval of an activity's sponsoring school employee.

This bill also requires students enrolled in a school district, who live with another student who is allowed to use regularly scheduled instruction time to participate in approved programs, to be allowed to use the same amount of instruction time as the participating student and will be considered participants of the same program.
