FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Revenue** assume this proposal would have no fiscal impact on their organization but would reduce state revenues. We requested additional information from DOR officials and we were told the amount was unknown but could exceed \$100,000 per year.

Officials from the **Office of Administration - Division of Budget and Planning (BAP)** stated this proposal would exempt delivery charges from sales tax. BAP officials stated they performed an extensive search of state and national data and could not find any datasets where delivery fees or charges were separated from gross receipts. BAP officials made an estimate of lost revenue using industry data for pizza deliveries.

According to data reviewed by **BAP** officials, there are approximately three billion pizzas sold in the United States each year and BAP estimated that approximately 51 million pizzas are sold within Missouri. Based on industry data, about half of all pizzas sold are for delivery, and thus subject to a delivery fee. Also based on industry data, BAP estimated that the average pizza delivery fee is \$3.00. Based on this information, B&P estimates that would exempt approximately \$76.5 million in delivery fees from pizza deliveries alone. Therefore, BAP estimates that this proposal would reduce Total State Revenue by more than \$3.2 million per year and General Revenue by more than \$2.3 million per year.

ASSUMPTION (continued)

The BAP response to our request for information provided an estimated revenue reduction to state and local funds as follows.

	Revenue Reduction		
Fund or Entity	FY 2018 FY 2019 and FY 2020		
General Revenue Fund	More than \$1,900,000	More than \$2,300,000	
School District Trust Fund	More than \$600,000	More than \$800,000	
Conservation Commission Fund	More than \$100,000	More than \$100,000	
Parks, Soil, and Water Funds	More than \$100,000	More than \$100,000	
Total State Funds	More than \$2,700,000	More than \$3,200,000	
Local Governments	More than \$2,800,000	More than \$2,800,000	

BAP officials noted that their estimate is a minimum only, since they could not estimate the loss to state revenues from deliveries for items such as flowers, groceries, rock and gravel, heavy machinery, and any other tangible good that could qualify, as there was no state or federal delivery data available for these businesses.

L.R. No. 0081-03 Bill No. HCS for HB 129 Page 5 of 11 February 2, 2017

ASSUMPTION (continued)

Officials from the **University of Missouri, Economic and Policy Analysis Research Center (EPARC)** prepared an estimate of lost revenues using data from the Bureau of Labor Statistics and the Bureau of Economic Analysis. EPARC officials estimated Missourians spend \$177,215,722 on postal and delivery charges each year, and assumed that \$41,796,161 of that is spent on non-USPS delivery of parcels. Finally, EPARC officials calculated an estimate of "delivery charges of all sales" in the following table.

Fund	Sales Tax Rate	Revenue Reduction
General Revenue	3.000%	\$1,253,885
School District Trust	1.000%	\$417,962
Conservation Commission	0.125%	\$52,245
Parks, Soil, and Water	0.100%	\$41,796
Total	4.225%	\$1,765,888

Officials from the **Department of Conservation (MDC)** assumed a previous version of this proposal would have an unknown negative fiscal impact, but greater than \$100,000. MDC officials stated that Conservation Sales Tax funds are derived from one-eighth of one percent sales and use tax pursuant to the Missouri Constitution. The Department assumes the Department of Revenue would be better able to estimate the anticipated fiscal impact that would result from this proposal.

In response to a previous version of this proposal, officials from the **Department of Natural Resources (DNR)** did not provide an estimate of fiscal impact, but stated that the Department's Parks and Soils Sales Tax Funds are derived from one-tenth of one percent sales and use tax pursuant to the Missouri Constitution. Therefore, any additional sales and use tax exemption would reduce revenue to the Parks and Soils Sales Tax Funds.

Officials from **Callaway County** assumed a previous version of this proposal would have an unknown fiscal impact on their organization.

Officials from the **Forsyth R-III School District** and the **Wentzville School District** assumed a previous version of this proposal would have a negative unknown fiscal impact on their organizations.

ASSUMPTION (continued)

Officials from **St. Louis County**, the **City of Kansas City**, the **Kirksville R-III School District**, and the **Forsyth School District** assume this proposal would have a negative fiscal impact on their organizations.

Officials from the **Campbell R-II School District** and the **West Plains School District** assumed a previous version of this proposal would have a negative fiscal impact to Missouri public schools.

Officials from the **Warren County R-III School District** stated they could not provide an estimate of the fiscal impact of a previous version of this proposal.

Officials from the **Office of the Secretary of State**, the **Joint Committee on Administrative Rules**, and the **Platte County Board of Elections** assume this proposal would have no fiscal impact on their organizations.

Officials from the St. Louis County Directors of Elections, the Jackson County Election Board, the Malta Bend School District, the St. Charles County Recorder of Deeds, the Everton School District, and the Kansas City Public Schools assumed a previous version of this proposal would have no fiscal impact on their organizations.

Oversight assumes this proposal would provide a broad exemption from sales and use taxes for all types of shipping and delivery charges and for individuals as well as businesses. Oversight notes that estimates have been prepared by the Office of Administration - Division of Budget and Planning and by the University of Missouri - Economic and Policy Analysis Research Center based on the best available external information.

L.R. No. 0081-03 Bill No. HCS for HB 129 Page 8 of 11 February 2, 2017

ASSUMPTION (continued)

Oversight has reviewed information from DOR officials and the DOR website indicating that merchants were notified of a Missouri Supreme Court decision (the Alberici case) in July, 2016 after the opinion was finalized in March, 2015. Oversight assumes the fiscal impact of the proposed sales tax exemption is based on estimated revenues under current law as compared to estimated revenues under the proposed changes, and assumes the exemption in this proposal could result in revenue reductions. Oversight also notes that actual collections under current law are dependent on the level of taxpayer compliance with periodic notices the Department of Revenue provides. The Department of Revenue or the Office of Administration - Division of Budget and Planning have not provided information on actual collections from sales tax on shipping and delivery charges.

Oversight will assume for fiscal note purposes that the revenue reduction from this proposal could exceed \$100,000 for those state funds which receive sales tax revenues, and for local governments.

FISCAL IMPACT - Small Business

This proposal would have an impact to a small business which provides delivery services or which purchases goods or services which are subject to a delivery charge.

L.R. No. 0081-03 Bill No. HCS for HB 129 Page 10 of 11 February 2, 2017

FISCAL DESCRIPTION

This proposal would create a sales tax exemption for usual and customary delivery charges that are separately stated from the sales price.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
