FISCAL DESCRIPTION

This bill requires the Board of Election Commissioners to establish, within a county with a charter form of government and a population greater than 950,000, seven subdistricts for any school district that is within or adjoining another school district that itself is within, in whole or part, a street light maintenance district with a population less than 3,000. The commissioners will establish seven subdistricts for the purpose of electing directors of the first mentioned school district.

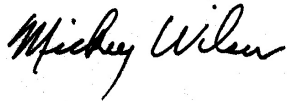

FISCAL DESCRIPTION (continued)

The bill requires the subdistrict boundaries to be drawn within 60 days after the effective date and within six months after each decennial census is reported to the President of the United States. The criteria for dividing the subdistricts are specified in the bill. If the commissioners cannot agree on the subdistrict boundaries by the deadlines the governing body of the county must draw the boundaries, as specified in the bill, and are not subject to veto by the chief executive of the county.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
