FISCAL ANALYSIS

ASSUMPTION

Officials at the **Department of Elementary and Secondary Education** assume no cost to the Department.

Officials at the **Kansas City Public Schools** assume this proposal would not have an unfunded mandate. However, it may stretch revenues allocated for professional development.

Officials at the **Kirksville R-III School District** assume a negative impact on the district.

Officials at the **West Plains School District** assume there is no fiscal impact from this proposal.

Oversight notes this proposal would allow teachers to participate in externships with local businesses and count it as part of the professional development required under §168.024. In order to obtain a teaching certificate in Missouri an applicant must have the required educational degree, pass a background check and have a certain number of professional development hours (including so many hours in a classroom) per §168.024. This proposal would allow the externships to count towards the professional development that can be obtained outside the classroom.

Oversight assumes this proposal would not have a fiscal impact as the teachers are already required to have a set number of professional development hours.
