FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Administration - Division of Budget and Planning (BAP)** provided the following response.

The proposed change would modify current requirements and place new restrictions on the state tax commission's duty to promulgate periodic revaluations of agricultural and horticultural land. These provisions would curtail future property tax revenue growth. If this change results in lower property taxes, the amount going to the state's Blind Pension Fund could be reduced. This would reduce Total State Revenues and would impact the constitutional revenue limit calculation as well.

Officials from the **State Tax Commission (TAX)** stated they had determined this proposal would have an unknown impact. TAX officials noted that since 1994 agricultural production values have increased 5%, and the General Assembly has the authority to reject the State Tax Commission recommendations under existing law.

Officials from the **Joint Committee on Administrative Rules** state this legislation is not anticipated to cause a fiscal impact beyond its current appropriation.

Officials from the **City of Kansas City** assume this proposal would have a very small negative fiscal impact on their organization, of an indeterminate amount.

Officials from the **Kirkville R-III School District** stated they could not determine the fiscal impact this proposal would have on their organization.

Officials from the **West Plains School District** assume this proposal would not reduce revenues but would limit growth in local revenue.

Officials from **Callaway County** assume this proposal would have no direct impact on their organization.

Officials from the **Department of Revenue, St. Louis County**, the **Jackson County Election Board** and the **Platte County Board of Elections** assume this proposal would have no impact on their organizations.

ASSUMPTION (continued)

According to officials from the **Office of the Secretary of State (SOS)**, many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, we also recognize that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what our office can sustain with our core budget. Therefore, we reserve the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight notes this proposal would prohibit the State Tax Commission from promulgating a rule increasing agricultural land production values under certain circumstances, and also notes the General Assembly currently has the ability to reject the State Tax Commission's recommendations as to agricultural land production values. Oversight assumes this proposal would have no impact on the state or local governments.
