

HB 52 -- ROAD DISTRICTS (Andrews)

COMMITTEE OF ORIGIN: Standing Committee on Local Government

This bill changes the qualification to serve as a commissioner on a special road district from a voter in the district to a registered voter in the district, or landowner is the district who is a registered voter in the county in which the district is located. The bill also requires the county commission to select special road district commissioners for three-year terms and cease holding elections for the positions in the event that two consecutive elections pass without any candidates for commissioner in municipal elections.

This bill is similar to HCS HB 2456 (2016).
