

HB 610 -- EMERGENCY SERVICES BOARDS

SPONSOR: Justus

This bill changes the composition of the board for the central dispatching of emergency services in certain counties by requiring that two of the seven members be residents of the county not affiliated with any of the entities from which the other five board members are selected. The non-affiliated members will be known as public members.

Currently, this only applies to Taney County.

This bill is similar to HB 2102 (2016).
