

HB 645 -- RETIRED PEACE OFFICERS

SPONSOR: Phillips

This bill establishes that any law enforcement agency in the state may supplement its workforce as necessary with qualified retired peace officers when a disaster or emergency has been declared by the Governor or when there is a national emergency. The agency will determine the role of the retired officer, including the officer's duty and whether he or she will be compensated or serve as a volunteer. A retired officer's temporary employment under this section will not affect the officer's retirement benefits in any manner.
