

HB 1067 -- MENTAL HEALTH FACILITY INSPECTIONS

SPONSOR: Hubrecht

This bill modifies provisions relating to inspection requirements of mental health facilities when it is found that a residential facility or day program is not in compliance. This bill removes the requirement that the report and written correction order be sent directly to the head of the facility by certified mail; it can now be sent by first class mail to the facility within 20 working days.

Reinspection of such facility is changed from 55 days to 60 days.
