

HB 1195 -- MERCURY EMISSIONS FEE

SPONSOR: Curtis

This bill requires every air pollution source required to file an annual emissions inventory questionnaire with the Department of Natural Resources that emits 30 pounds or more of mercury annually to pay an annual fee of \$1,000 per pound emitted. The department may retain a percentage of the fees necessary to administer the collection and allocation of the fees and the remaining portion will be remitted to the Department of Health and Senior Services' Bureau of Special Health Care Needs.
