FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Administration (OA)** - **Office of Equal Opportunity (OA-OEO)** assume Section 37.020.1(3)(d) of this legislative proposal would allow any firm/entity based in Missouri to be considered a "minority business enterprise" if the organization meets the requirements outlined in Section 37.020.1(3)(d). The OEO would be responsible for determining and monitoring the demographic makeup of each firm seeking certification. This would result in OEO needing to examine workforce demographics for each applicant, both via documentation and on-site audit. This will create more background work to be conducted by OEO personnel prior to certification, as well as the development of new rules and regulations.

Due to the complexity of what would be required by this legislation, OA-OEO would need additional staffing to determine if firms meet the standard of at least one quarter of minority employees to become certified as a "minority business enterprise". Currently, according to the Missouri Economic Research and Information Center (MERIC) there are over 200,000 business considered minority or women owned. OEO's Minority Business Enterprise Program (M/WBE) database has almost 1,400 businesses certified as minority and women business enterprises. In order to meet the requirements of the proposed legislation, the OA-OEO certification program would need to create the opportunity for over 500,000 small business in Missouri to meet eligibility requirements. This creates the potential for double the amount of work for the OA-OEO.

It is assumed that OA-OEO would need to hire two (2) additional staff (Planner II - M/WBE Certification Coordinators/Compliance Officers - each at \$39,708) to meet the requirements of this legislation. With salaries, fringe benefits, and expense and equipment, OA assumes a cost of approximately \$139,000 per year for these additional FTE.

Oversight assumes OA-OEO will not incur additional leased space expense from the two additional FTE, and has reduced OA's cost estimate accordingly.

Officials from the **Office of Administration - Division of Purchasing**, the **Department of Higher Education** and the **Department of Labor and Industrial Relations** each assume the proposal will have no fiscal impact on their respective organizations.

Officials from the Missouri State University, University of Central Missouri, University of Missouri and the State Technical College of Missouri each assume the proposal will have no fiscal impact on their respective organizations.
