FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Social Services (DSS), Children's Division (CD)** and **Division of Legal Services (DLS)** state HCS HB 1862 amends two sections in Chapter 210 relating to child abuse investigations.

A new subsection 4 is added to Section 210.145. This new subsection provides that the CD may accept a report for investigation or family assessment if either the child or the alleged perpetrator resides in the state, may be found in the state or if the incident occurred in the state. The CD may also accept a report if the child has recently resided in the state but he or she is currently located in another state and the reported incident occurred outside of the state. Finally, the CD is required to immediately communicate all reports that merit investigation to the appropriate agencies in such state where the child is believed to be located along with any relevant information.

A new subsection 20 is also added to Section 210.145. This new subsection provides that nothing in this chapter shall be construed to prohibit the CD from coinvestigating a report of child abuse or neglect or from sharing records and information with other appropriate agencies in other states if the CD determines it is appropriate to do so under subsection 4 of section 210.150 and if such receiving agency is exercising its authority under the law.

A new subsection 4 is added to Section 210.150. This new subsection provides that the CD may share any records, information, and findings with federal, state, or local child welfare agency personnel and law enforcement agencies, including those from outside the state, and sets out the conditions under which documents or information can be shared. The information may only be shared if the CD reasonable believes the receiving entity will prevent the unauthorized dissemination of the information contained therein.

The CD currently takes reports in regard to either the child or alleged perpetrator resides in Missouri, may be found in Missouri, or if the incident occurred in Missouri. The Division may also accept a report if the child resides in Missouri, is currently residing outside of Missouri and the incident occurred inside Missouri.

Missouri does not currently accept reports on a child that is currently living outside of Missouri and the incident occurred outside of Missouri, but the child once lived in Missouri.

In calendar year 2017, the CD's Child Abuse and Neglect Hotline Unit (CANHU) documented 437 calls that were not taken (investigated) due to the alleged victim and alleged perpetrator not

ASSUMPTION (continued)

living in the State of Missouri. In fiscal year 2017, an additional 106 calls were taken (investigated) giving a total of 543 out-of-state calls. Based on the number of additional calls, no additional CANHU staff would be needed (based on a 15 call per day average workload). If this legislation does pass, it is assumed there would be a 25% increase in call volume (543 out-of-state calls * 0.25 = 136 calls, rounded up). This would result in an additional 679 reports to be investigated annually (543 calls + 136 calls = 679 calls). This would result in the need for an additional 5 field staff investigators based on a 12 case workload per month per FTE (679 calls/investigations / 12 cases per month / 12 months = 4.72 FTE, rounded to 5 FTE).

Investigating incidents that did not occur within this state would also create jurisdictional problems with courts, law enforcement and other multi-disciplinary team members.

Oversight has, for fiscal note purposes only, changed the starting salary for the Children's Service Worker to correspond to the second step above minimum for comparable positions in the state's merit system pay grid. This decision reflects a study of actual starting salaries for new state employees for a six month period and the policy of the Oversight Subcommittee of the Joint Committee on Legislative Research.

Oversight notes, based on responses from the **Office of Administration (OA), Division of Facilities Management, Design and Construction (FMDC)** for proposals from the current session that result in an agency needing additional rental space, costs include building lease costs, fuel and utilities, and janitorial services. Therefore, Oversight will reduce DSS' estimated lease expenses for added utilities and janitorial services costs.

Oversight notes DSS officials indicated that in their original proposal for legislation relating to CA/N reports, language was not included about DSS accepting reports if the child has recently resided in the state but is currently located in another state and the incident occurred in that state. If this language is removed it would eliminate the need for additional Children's Division staff and the fiscal impact of the proposal would be \$0.

Officials from the **Office of Attorney General (AGO)** assume any potential costs arising from this proposal can be absorbed with existing resources. The AGO may seek additional appropriations if the proposal results in a significant increase in litigation.

Officials from the **Office of State Courts Administrator (OSCA)** state this proposal may have some impact, but there is no way to quantify that impact at the present time. Any significant changes will be reflected in future budget requests.

ASSUMPTION (continued)

Officials from the **Office of State Public Defender** assume the proposal would not fiscally impact their agency.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This bill provides that the Children's Division, within the Department of Social Services, may accept a report for investigation or assessment if either the child or alleged perpetrator resides or may be found in Missouri or if the incident occurred in Missouri or if the child recently resided in Missouri but the incident occurred outside of Missouri. The division must immediately communicate reports that merit investigation to the appropriate agencies in the state where the child is believed to be located.

Nothing in Chapter 210, RSMo, shall be construed to prohibit the division from co-investigating a report of child abuse or neglect or sharing records and information with another state, territory, or nation if the division determines it is appropriate to do so.

The division may share records with child welfare agencies and law enforcement agencies outside of Missouri when the division believes that such information is needed to protect a child. Unsubstantiated reports may only be shared if the division reasonably believes the receiving entity will prevent unauthorized dissemination.

This legislation is not federally mandated and would not duplicate any other program. This proposal would require additional capital improvements or rental space.
