## **FISCAL ANALYSIS**

### **ASSUMPTION**

Officials from the **Department of Elementary and Secondary Education (DESE)** assume there is no cost to the department.

Officials from the **Wellsville-Middletown R-1 School District** assume there will be some unanticipated costs to the district for having to reset the school calendar.

Officials from the **East Carter County R-2 School District** assume the fiscal impact is not an issue for the district.

Officials from the **Summersville R2 School District** note the district will have to change the starting date and assume there is no fiscal impact.

Officials from the **Kirksville R-III School District, West Plains School District and Pettis County R-5 School District** assume the proposal will have no fiscal impact on their organizations.

**Oversight** notes this proposal would set the opening day of school districts at no earlier than ten calendar days prior to the first Monday in September. Oversight assumes school districts that currently start prior to ten calendar days prior to the first Monday in September would be required to delay their start date. Oversight assumes that this proposal does not change the length of the school day or the number of days in the school year so this proposal should not have a direct fiscal impact.
