FISCAL ANALYSIS

ASSUMPTION

Officials from the **Attorney General's Office (AGO)** assume that any potential costs arising from this proposal could be absorbed with existing resources. The AGO may seek additional appropriations if there is a significant increase in litigation.

Officials from the **Department of Public Safety - Missouri Highway Patrol**, the **Office of Prosecution Services**, the **Springfield Police Department**, and the **St. Louis County Police Department** each assume the proposal would not fiscally impact their respective agencies.

For the purpose of this proposed legislation, officials from the **Office of State Public Defender (SPD)** cannot assume that existing staff will provide effective representation for any new cases arising where indigent persons are charged with the proposed new crime of installing or using a cell site simulator device, a new class E felony.

While the number of new cases (or cases with increased penalties) may be too few or uncertain to request additional funding for this specific bill, the SPD will continue to request sufficient appropriations to provide effective representation in all cases where the right to counsel attaches.

Oversight assumes the SPD can absorb the additional caseload that may result from this proposal.

Officials from the **Office of the State Courts Administrator** state there may be some impact, but there is no way to quantify that currently. Any significant changes will be reflected in future budget requests.

In response to a similar proposal from 2017 (SB 84), officials from the **Department of Corrections** assumed the proposal would not fiscally impact their agency.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
