## FISCAL ANALYSIS

### ASSUMPTION

Officials from the **Office of the Secretary of State (SOS)** assume many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with our core budget. Therefore, SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

**Oversight** assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process.

Officials from the **Office of the State Public Defender** assume for the purpose of the proposed legislation, and as a result of excessive caseloads, the Office of the State Public Defender cannot assume existing staff will provide competent, effective representation for any new cases where indigent persons are charged with the proposed new crime of destroying or damaging online notary information, a new Class D misdemeanor. The Missouri State Public Defender System is currently providing legal representation in caseloads in excess of recognized standards.

While the number of new cases may be too few or uncertain to request additional funding for this specific bill, the Office of the State Public Defender will continue to request sufficient appropriations to provide competent and effective representation in all cases where the right to counsel attaches.

Officials from the **Office of State Courts Administrator** assume the proposal may have some fiscal impact but there is no way to quantify that currently. Any significant changes will be reflected in future budget requests.

Officials from the **Office of Prosecution Services** assume the proposal will have no measurable fiscal impact on their organization.
