

SECOND REGULAR SESSION

HOUSE BILL NO. 1346

99TH GENERAL ASSEMBLY

INTRODUCED BY REPRESENTATIVE STACY.

4124H.02I

D. ADAM CRUMBLISS, Chief Clerk

AN ACT

To amend chapter 115, RSMo, by adding thereto one new section relating to ranked choice voting, with a delayed effective date.

Be it enacted by the General Assembly of the state of Missouri, as follows:

Section A. Chapter 115, RSMo, is amended by adding thereto one new section, to be known as section 115.440, to read as follows:

115.440. 1. As used in this section, the following terms mean:

(1) "Continuing ballot", a ballot that has not been exhausted by the instant runoff vote;

(2) "Continuing candidate", a candidate who has not been eliminated by the instant runoff vote;

(3) "Elected office", any office that requires voters go to the polls to elect candidates including, but not limited to, national offices such as United States President, United States Senator, or United States Representative; statewide offices such as governor, lieutenant governor, attorney general, secretary of state, state treasurer, state auditor, supreme court judge, circuit court judge, or associate circuit court judge; state of Missouri general assembly representatives and senators; local offices such as any county, township, city, town, village, fire district, library district, port authority, school district, or special district; or any other political subdivision not listed;

(4) "Exhausted ballot", a ballot on which all votes cast are for candidates who have been eliminated;

(5) "Instant runoff voting", a procedure of voting as described under this section that requires a candidate to receive a majority rather than a plurality of all votes cast for

EXPLANATION — Matter enclosed in bold-faced brackets [thus] in the above bill is not enacted and is intended to be omitted from the law. Matter in **bold-face** type in the above bill is proposed language.

18 an elected office before the candidate wins the election, and that allows voters to cast votes
19 for candidates on a ranked-choice ballot;

20 (6) "Ranked-choice ballot" or "ballot", a ballot that allows voters to cast a vote for
21 multiple candidates and in order of preference denoted by the voter by assigning a rank
22 to each candidate for the office.

23 2. All primary and general elections in the state of Missouri shall use ranked-choice
24 ballots and instant runoff voting. No candidate for any office shall be nominated or
25 certified under this chapter unless such candidate receives a majority of the votes cast in
26 the election for such state office.

27 3. Votes for all candidates for office shall be counted and recorded as provided in
28 this chapter and shall be certified in the following manner:

29 (1) Each ranked-choice ballot shall be counted as one vote for the continuing
30 candidate whom the voter selects as the voter's highest preference of continuing
31 candidates. A candidate shall not receive a vote after such candidate has been eliminated
32 in instant runoff voting. A candidate for whom the voter noted a lower preference shall
33 not receive a vote unless and until that candidate is the continuing candidate with the
34 highest preference on the voter's ranked-choice ballot;

35 (2) If a candidate receives a majority of the all votes cast in the first count of instant
36 runoff votes, that candidate shall be certified as the winner;

37 (3) If no candidate receives a majority of votes after the first count, the candidate
38 who received the fewest votes shall be eliminated, and each vote cast for such eliminated
39 candidate shall be redistributed to the next ranked continuing candidate whom the voter
40 noted as the voter's next highest preference. If, after this redistribution of votes, any
41 continuing candidate receives a majority of the votes cast on the continuing ballots, that
42 continuing candidate shall be certified as the winner;

43 (4) If no candidate receives a majority of votes cast on the continuing ballots after
44 the procedure in subdivision (3) of this subsection, the continuing candidate who received
45 the fewest votes shall be eliminated. Each vote cast for such eliminated candidate shall be
46 redistributed to the next ranked continuing candidate whom the voter noted as the voter's
47 next highest preference. This process of eliminating the candidate with the fewest votes
48 and redistributing such eliminated candidate's votes to the voter's next highest preferred
49 continuing candidate shall be repeated until a candidate receives a majority of the votes
50 cast on the continuing ballots;

51 (5) If the total number of votes for the two or more candidates credited with the
52 lowest number of votes is fewer than the number of votes credited to the continuing
53 candidate with the next highest number of votes, those candidates with the lowest number

54 of votes shall be eliminated simultaneously and their votes transferred to the next ranked
55 continuing candidate on each ballot in a single counting operation; and

56 (6) A tie between two or more candidates shall be resolved by weighting the
57 preference of votes for each candidate, and decided in favor of the candidate who received
58 more votes at a higher preference. If a tie still exists between two or more candidates, the
59 tie shall be resolved by a coin flip conducted by the elections commission and votes of the
60 eliminated candidate shall be redistributed.

61 4. For elections in which more than one candidate is to be elected to an office in a
62 multiple-seat district or on a governing body that includes multiple at-large seats, a
63 ranked-choice ballot shall be used. The ballots shall be counted and certified in the
64 following manner:

65 (1) Each candidate shall be treated separately to determine the highest preference
66 among the candidate field;

67 (2) The candidate who received the fewest first choices shall be eliminated and each
68 vote cast for that eliminated candidate shall be redistributed to the next ranked continuing
69 candidate whom the voter noted as the voter's next highest preference;

70 (3) The process under subdivision (2) of this subsection shall be repeated until two
71 candidates remain and one candidate receives the majority of votes;

72 (4) Ties will be resolved by applying the method described in subdivision (6) of
73 subsection 3 of this section; and

74 (5) After a candidate receives a majority of votes under subdivision (3) of this
75 subsection, such candidate shall be certified and removed from the candidate pool as if the
76 candidate received the fewest votes. The process in this subdivision shall be repeated until
77 all seats are filled.

78 5. If the voting system used by a municipality or political subdivision cannot
79 feasibly accommodate choices equal to the total number of candidates running for each
80 office, the election authorities may limit the number of choices a voter may rank to no
81 fewer than three per open seat. The ballot shall in no way interfere with a voter's ability
82 to cast a write-in vote for a candidate.

83 6. No exhausted ballot shall be counted in further stages of the tabulation. If a
84 ranked-choice ballot gives equal rank to two or more candidates, the ballot shall be
85 declared exhausted if such multiple rankings are reached. If a voter casts a ranked-choice
86 ballot but skips a rank, the voter's vote shall be transferred to that voter's next ranked
87 choice.

88 7. Any election dispute regarding the implementation of a limit on the number of
89 ranked candidates on a ballot under subsection 5 of this section shall be first appealed to

90 the secretary of state for a final order and thereafter may be appealed to any court of
91 competent jurisdiction. All other election disputes shall proceed as established in this
92 chapter.

93 **8. All statutes and regulations governing voting procedures and ballots under this**
94 **chapter shall govern instant runoff voting and ranked-choice ballots.**

95 **9. The secretary of state shall conduct a voter education campaign to familiarize**
96 **voters with the instant runoff voting system and ranked-choice ballots.**

97 **10. Beginning January 1, 2019, any voting machine not compatible with ranked-**
98 **choice voting that is removed from the election authority's inventory due to mechanical**
99 **malfunction, wear and tear, or any other reason shall not be replaced. No additional**
100 **voting machines not compatible with ranked-choice voting shall be added to the election**
101 **authority's inventory. The provisions of this subsection shall not require the breach of an**
102 **existing contract.**

103 **11. Ranked-choice voting shall be applied by an election authority when a sufficient**
104 **inventory of ranked-choice voting compatible equipment is acquired through the**
105 **replacement of existing equipment under subsection 10 of this section.**

Section B. The provisions in section 115.440 shall become effective on January 1, 2019.
