78 practice arrangements including delegating authority to prescribe controlled substances. Any
79 rules relating to dispensing or distribution of medications or devices by prescription or

87 consistent with guidelines for federally funded clinics. The rulemaking authority granted in this
88 subsection shall not extend to collaborative practice arrangements of hospital employees
89 providing inpatient care within hospitals as defined pursuant to chapter 197 or population-based
90 public health services as defined by 20 CSR 2150-5.100 as of April 30, 2008.

91 5. The state board of registration for the healing arts shall not deny, revoke, suspend or
92 otherwise take disciplinary action against a physician for health care services delegated to a
93 registered professional nurse provided the provisions of this section and the rules promulgated
94 thereunder are satisfied. Upon the written request of a physician subject to a disciplinary action
95 imposed as a result of an agreement between a physician and a registered professional nurse or
96 registered physician assistant, whether written or not, prior to August 28, 1993, all records of
97 such disciplinary licensure action and all records pertaining to the filing, investigation or review
98 of an alleged violation of this chapter incurred as a result of such an agreement shall be removed
99 from the records of the state board of registration for the healing arts and the division of
100 professional registration and shall not be disclosed to any public or private entity seeking such
101 information from the board or the division. The state board of registration for the healing arts
102 shall take action to correct reports of alleged violations and disciplinary actions as described in
103 this section which have been submitted to the National Practitioner Data Bank. In subsequent
104 applications or representations relating to his medical practice, a physician completing forms or
105 documents shall not be required to report any actions of the state board of registration for the
106 healing arts for which the records are subject to removal under this section.

107 6. Within thirty days of any change and on each renewal, the state board of registration
108 for the healing arts shall require every physician to identify whether the physician is engaged in
109 any collaborative practice agreement, including collaborative practice agreements delegating the
110 authority to prescribe controlled substances, or physician assistant agreement and also report to
111 the board the name of each licensed professional with whom the physician has entered into such
112 agreement. The board may make this information available to the public. The board shall track

113 the reported information and may routinely conduct random reviews of such agreements to
114 ensure that agreements are carried out for compliance under this chapter.

115 7. Notwithstanding any law to the contrary, a certified registered nurse anesthetist as
116 defined in subdivision (8) of section 335.016 shall be permitted to provide anesthesia services
117 without a collaborative practice arrangement provided that he or she is under the supervision of
118 an anesthesiologist or other physician, dentist, or podiatrist who is immediately available if
119 needed. Nothing in this subsection shall be construed to prohibit or prevent a certified registered
120 nurse anesthetist as defined in subdivision (8) of section 335.016 from entering into a
121 collaborative practice arrangement under this section, except that the collaborative practice
122 arrangement may not delegate the authority to prescribe any controlled substances listed in
123 Schedules III, IV, and V of section 195.017, or Schedule II - hydrocodone.

124 8. A collaborating physician **or supervising physician** shall not enter into a

131

132 9. It is the responsibility of the collaborating physician to determine and document the
133 completion of at least a one-month period of time during which the advanced practice registered
134 nurse shall practice with the collaborating physician continuously present before practicing in
135 a setting where the collaborating physician is not continuously present. This limitation shall not
136 apply to collaborative arrangements of providers of population-based public health services as
137 defined by 20 CSR 2150-5.100 as of April 30, 2008.

138 10. No agreement made under this section shall supersede current hospital licensing
139 regulations governing hospital medication orders under protocols or standing orders for the
140 purpose of delivering inpatient or emergency care within a hospital as defined in section 197.020
141 if such protocols or standing orders have been approved by the hospital's medical staff and
142 pharmaceutical therapeutics committee.

143 11. No contract or other agreement shall require a physician to act as a collaborating
144 physician for an advanced practice registered nurse against the physician's will. A physician
145 shall have the right to refuse to act as a collaborating physician, without penalty, for a particular
146 advanced practice registered nurse. No contract or other agreement shall limit the collaborating
147 physician's ultimate authority over any protocols or standing orders or in the delegation of the
148 physician's authority to any advanced practice registered nurse, but this requirement shall not

149 authorize a physician in implementing such protocols, standing orders, or delegation to violate
150 applicable standards for safe medical practice established by hospital's medical staff.

151 12. No contract or other agreement shall require any advanced practice registered nurse
152 to serve as a collaborating advanced practice registered nurse for any collaborating physician
153 against the advanced practice registered nurse's will. An advanced practice registered nurse shall
154 have the right to refuse to collaborate, without penalty, with a particular physician.

106 suspended or revoked by the board in the same manner and for violation of the standards as set
107 forth by section 334.100, or such other standards of conduct set by the board by rule or
108 regulation. Persons licensed pursuant to the provisions of chapter 335 shall not be required to
109 be licensed as physician assistants. All applicants for physician assistant licensure who complete

123 (4) The manner of supervision between the supervising physician and the physician
124 assistant, including how the supervising physician and the physician assistant shall:

125 (a) Attest on a form provided by the board that the physician shall provide supervision
126 appropriate to the physician assistant's training and experience and that the physician assistant
127 shall not practice beyond the scope of the physician assistant's training and experience nor the

136 agreement review a minimum of ten percent of the charts of the physician assistant's delivery
137 of health care services every fourteen days.

138 8. When a physician assistant supervision agreement is utilized to provide health care
139 services for conditions other than acute self-limited or well-defined problems, the supervising

153 No contract or other agreement shall limit the supervising physician's ultimate authority over any
154 protocols or standing orders or in the delegation of the physician's authority to any physician

156 standing orders, or delegation to violate applicable standards for safe medical practice
157 established by the hospital's medical staff.

158 12. Physician assistants shall file with the board a copy of their supervising physician
