

HB 1268 -- DENTAL FACULTY PERMITS

SPONSOR: Lichtenegger

This bill creates a dental faculty permit system to be implemented and enforced by the Missouri Dental Board. This bill authorizes the holder of a dental faculty permit to practice dentistry without a Missouri license but only within the course of teaching as part of an accredited dental school program. The holder of a dental faculty permit will not be able to receive any fee or compensation for the practice of dentistry except salary or benefits received as part of his or her employment with the Missouri dental school, college, or program.

This bill is similar to HB 665 (2017).
