

HB 1688 -- PERFORMANCE MEASURES

SPONSOR: Eggleston

Beginning in calendar year 2019, public institutions of higher education, in collaboration with the coordinating board, will add to the existing institutional performance measures an institutional performance measure relating to job placement in a field or position associated with the student's degree level and pursuit of a graduate degree.

Such job placement measure will be weighted as one-third of the performance funding allocation for each institution, with the remaining measures counted equally as the remaining two-thirds of an institution's performance funding allocation. The success or failure of any institution to meet any of its performance measures will not affect the performance funding of any other institution. If an institution fails to meet its performance measures the forfeited funds will revert to general revenue.

This bill is the same as HCS HB 927 (2017).
