

HB 1773 -- ADVANCE PRACTICE REGISTERED NURSES

SPONSOR: Morgan

This bill removes the requirement that an advanced practice registered nurse practice under the supervision of a doctor in a collaborative practice arrangement.

The bill defines the practice of advanced practice nursing and makes changes to an advanced practice registered nurse's prescriptive authority. The bill also requires advanced practice registered nurses to obtain a license from the board of nursing.

This bill is similar to HB 165 (2017).
