

HB 1819 -- ETHICS

SPONSOR: Quade

This bill allows the Missouri Ethics Commission to initiate an independent investigation by the Executive Director when there are reasonable grounds to believe that a specified violation has occurred and there is a unanimous vote of the six members of the Commission, with all members voting. If there are no reasonable grounds to believe a violation has occurred, then the investigation is terminated and the individual under investigation will be notified of the reasons for the disposition of the investigation.
