

SS#2 HCS HB 2129 -- ORGAN DONATION EDUCATION

This bill requires public schools to allow any recognized organization that provides unbiased information on organ, eye, and tissue donation to make a 30-minute presentation to the schools' governing bodies. Schools must consider the presentation and decide whether to present the information to students and parents. The bill provides that no student may be required to participate in donation instruction if the student has a sincere belief contrary to such instruction.
