

HB 2497 -- Driver's Licenses

SPONSOR: Reiboldt

This bill allows the Missouri Department of Revenue to retain commercial driver's license applicant documents from specified military members that allow for a waiver of driver's license skills or knowledge tests. The department may waive knowledge tests for these licenses for qualified military applicants, and extend the waiver period for both knowledge and skills tests for qualified military applicants from 90 days to one year.

The bill also extends the waiver period and scope for taking a civilian or military motorcycle training course so that waiver of both the driving test and knowledge test for motorcycle licenses is allowed and the time period to apply for waiver is extended to one year from the date of the course taken.

This bill is the same as SB 919 (2018).
