

HB 2600 -- MILES PER GALLON REGISTRATION FEES

SPONSOR: Korman

This bill sets the motor vehicle registration fee based on the combined city and highway miles per gallon rating on the vehicle's Environmental Protection Agency fuel economy label. The fees are specified in the bill and will be a minimum of \$29 for a vehicle with a rating of less than 29 miles per gallon. A vehicle with a rating over 29 miles per gallon, but less than 99 miles per gallon will pay an additional \$3 per gallon efficiency rating, and a vehicle with a rating of 99 miles per gallon or over will pay a registration fee of \$210. The fee charged for a motorcycle and motortricycle will remain the same.
