

HB 2629 -- SCHOOL SECURITY

SPONSOR: Cookson

This bill requires every school district and charter school to ensure an armed security officer is present in every school building during school hours. Armed security officers must carry a firearm and be POST certified. The bill also requires every school district and charter school to install cameras at every school building entrance and exit such that a single person could monitor a live feed of all the entrances and exits in a building.

The bill requires the Governor to include funding for these requirements in his or her annual budget submission to the General Assembly.
