FISCAL ANALYSIS

ASSUMPTION

§§579.040 and 579.076 - Entities exempted from unlawful delivery of drug paraphernalia

Officials from the **Department of Health and Senior Services (DHSS)** state the proposed legislation would require any entity that possesses, distributes, or delivers hypodermic needles or syringes for the purpose of operating a syringe exchange program or mitigating health risks that are associated with unsterile drug use to register with the DHSS. The duties associated with the registration of entities would require an additional 25 hours per year by a Health Program Representative (HPR), which would be a total cost of \$512.75 annually. (HPR average hourly salary of \$20.51 * 25 hours = \$512.75)

The DHSS anticipates being able to absorb these costs. However, until the FY 2020 budget is final, the department cannot identify specific funding sources.

Oversight does not have any information to the contrary. Oversight assumes the DHSS has sufficient staff and resources to perform the additional work required by this proposal and will reflect no fiscal impact for the DHSS for fiscal note purposes.

Officials from the **Osage County Health Department** assume the proposal would not have any fiscal impact on their department unless it increases their liability insurance. At the present time, the department does not intend to implement this program as they do not have the funding available.

Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact in the fiscal note for this organization.

Oversight notes the **Department of Insurance, Financial Institutions and Professional Registration**, the **Department of Public Safety**, the **Missouri Office of Prosecution Services**, the **Office of State Courts Administrator**, the **Office of State Public Defender**, the **Andrew County Health Department**, the **Bollinger County Health Center**, the **Columbia/Boone County Department of Public Health and Human Services**, the **Perry County Health Department** and the **St. Louis County Department of Public Health** have [stated](#) the proposal would not have a direct fiscal impact on their [organizations](#). Oversight does not have [any](#) information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.

In response to the previous version of this proposal, officials from the **Cole County Health Department** and the **Cooper County Public Health Center** [stated](#) the proposal would not have a direct fiscal impact on their organizations. **Oversight** does not have [any](#) information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.

ASSUMPTION (continued)

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other Local Public Health Departments were requested to respond to this proposed legislation but did not. FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
