FISCAL ANALYSIS

ASSUMPTION

Section 324.035

Officials from the **Department of Insurance, Financial Institutions and Professional Registration (DIFP)** do not anticipate any fiscal impact from this section. The division believes offering training helps keep licensees compliant with laws and regulations. As an example, the state's Committee of Psychologists saw a tangible decrease in complaints after offering continuing education (CE) course for licensees. Should the number of complaints and investigations rise, the department may need to request additional appropriation and FTE through the budget process.

Oversight notes that the Department of Insurance, Financial Institutions and Professional Registration has stated the proposed section would not have a direct fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.

Sections 337.020

Officials from the **Department of Insurance, Financial Institutions and Professional Registration (DIFP)** assume this proposal removes language that was inadvertently left in a bill that passed in 2018. Currently, the State Committee of Psychologists' license processing time is being extended by the inadvertent language. This additional time and effort is increasing the committee's costs. DIFP estimates 40 applications a year are processed and not approved, which would be a \$6,000 per year loss of income to the State Committee of Psychologist Fund for work done to process applications.

If the proposed legislation does not pass and the increased costs remain, the State Committee of Psychologists will need to increase their fees to correlate with the increased processing time and effort. The proposed legislation itself will cause no fiscal impact to the department, but prevent future costs to committee licensees.

Oversight will assume removing this fee exemption may impact behavior and result in fewer non qualified applications from being submitted. Therefore, Oversight will reflect up to \$6,000 of additional annual application fee revenue to the State Committee of Psychologist Fund.

ASSUMPTION (continued)

Officials from the **Department of Mental Health**, the **Department of Health and Senior Services** and the **Department of Social Services** each assume the proposal will have no fiscal impact on their respective organizations.

Oversight notes that the above mentioned agencies have stated the proposal would not have a direct fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note for these agencies.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This bill prohibits boards, commissions or committees within the division of Professional Registration from utilizing fees for the purpose of offering continuing education classes.

This bill allows the Committee on Psychologists to charge an application fee for psychologist licensure at the time the application is received. Currently, law prevents the committee from charging a fee unless the application is approved.

This bill also removes a provision allowing a psychologist who is licensed in another state and is currently licensed in another jurisdiction who is a signatory to the Association of State and Provincial Psychology Board's reciprocity agreement to receive a license in Missouri.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
