FISCAL ANALYSIS

ASSUMPTION

Oversight assumes the proposed legislation changes the threshold for advertising for bids in at least 2 newspapers, posting a notice in his or her office and soliciting bids by mail from purchases where the estimated number of expenditures is \$25,000 or over to \$100,000 or over.

Officials from the **Office of Administration - Purchasing Division (OA)** state that in FY 2018, OA spent \$7,504 on advertising. Based on a sampling of bids from last year, approximately 38% of those were under \$100,000; therefore the proposed legislation would result in a \$2,851 savings to the General Revenue Fund.

Oversight notes that the Office of Administration has stated the proposal would have a savings of \$2,851 to their agency. Oversight does not have any information to the contrary. Therefore, Oversight will reflect an average savings of \$2,851 per year.

Officials from the **Department of Revenue**, the **Department of Natural Resources** and the **Department of Transportation** each assume the proposal will have no fiscal impact on their respective organizations.

Oversight notes that the above mentioned agencies have stated the proposal would not have a direct fiscal impact on their respective organizations. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.

Officials from the **Office of the Secretary of State (SOS)** assume many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The SOS is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$5,000. The SOS recognizes that this is a small amount and does not expect that additional funding would be required to meet these costs. However, the SOS also recognizes that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain with the core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could require additional resources.

ASSUMPTION (continued)

Officials from the **Joint Committee on Administrative Rules (JCAR)** state this legislation is not anticipated to cause a fiscal impact beyond its current appropriation.

Oversight assumes JCAR will be able to administer any rules resulting from this proposal with existing resources.
