FISCAL ANALYSIS

ASSUMPTION

Officials from the **Joint Committee on Public Employees' Retirement** assume the proposal has no direct fiscal impact to the Joint Committee on Public Employee Retirement. Our review of this legislation indicates it would not create a "substantial proposed change" in future plan benefits as defined in Section 105.660(10).

Officials from **Local Government Employees Retirement System (LAGERS)** assume this proposal would require modest programming changes to LAGERS' pension administration system that would result in a one-time cost to the LAGERS system of less than \$5,000. There would be no other fiscal impact to LAGERS.

Oversight notes that LAGERS is not a political subdivision therefore will not reflect an impact to their organization in the fiscal note.

Oversight notes the minimum retirement age for general employees is 60 years of age. Oversight assumes this proposal lowers the minimum retirement age to 55 years of age for certain employees defined as public safety personnel. Oversight assumes there could be an increase in employer contributions for local political subdivisions for employees they elect to cover under the retirement system as public safety personnel who retire at the age of 55 instead of 60. Oversight notes each individual employer electing to add certain employees as public safety personnel would have a actuarial cost statement done to determine if the change would require an increase in the employers contribution rate.

Oversight notes the limitation on increases in employer contribution rates does not apply to contribution increase resulting from this proposal. Additionally, Oversight notes the board can set different rates of contributions employers having policeman members or having fireman members (RSMo. 70.730.4). Oversight is uncertain public safety personnel would qualify as policeman members or fireman members which would allow for a different contribution rate than general employees.

Oversight will show a range of \$0 (no local political subdivisions elect to cover additional employees as public safety personnel) to an unknown cost to local political subdivisions if an increase in employer contributions were needed. Oversight assumes this proposal is discretionary and would have no local fiscal impact without action by the governing body.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

FISCAL DESCRIPTION

This bill authorizes a political subdivision to hold a vote on whether to cover emergency fire and police telecommunicators, jailors, and emergency medical service personnel as public safety personnel members in the Missouri local government employee's retirement system. If the election is made then the minimum retirement age for public safety personnel is 55 years of age.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
