FISCAL ANALYSIS

ASSUMPTION

Officials at the **State Tax Commission** assume this proposal has no fiscal impact as sawmills are currently designated as agricultural and horticultural property for assessment purposes under §135.016.

Officials at the **Department of Agriculture** assume there is no fiscal impact from this proposal.

Officials at the **St. Francois County Assessor's Office** state they already assess their sawmills as agricultural property.

Officials at **St. Louis County, Franklin County Assessor, Mercer County Assessor, Monroe County Assessor, Stoddard County Assessor** and the **Wright County Assessor** each assume there is no fiscal impact from this proposal.

Oversight notes that sawmills are considered agricultural and horticultural property for property assessment purposes. This proposal would make sure they are agricultural and horticultural property for planning and zoning purposes as well. Oversight assumes this would not have a fiscal impact.

Oversight only reflects the responses that we have received from state agencies and political subdivisions; however, other county assessors, county commissions and county planning and zoning commissions were requested to respond to this proposed legislation but did not.
