

HB 277 -- EMPLOYMENT SECURITY

SPONSOR: Andrews

This bill allows the Division of Employment Security to serve any notice, decision or other paper by electronic means, unless an alternative method of transmission is requested by the employer or claimant. In addition, any protest, notice of appeal or other paper required to be filed with the division may be filed by electronic means on the division's website. The bill allows certain functions of the division to be performed by a computer. However, any issue raised in a timely protest, and any issue of fraud, must be decided by a division deputy.
