

HB 720 -- SEWER DISTRICTS

SPONSOR: Justus

This bill specifies that if sewer charges remain unpaid for a period of more than three months, a sewer district, after notifying the customer by certified mail, has the authority to disconnect the customer's sewer line or pump until the sewer charges, including any disconnect and reconnect fees, have been paid. The district and its board of trustees are not liable for sewer overflows or other issues resulting from the discontinuance of the sewer services.
