

HB 1139 -- HOME SCHOOL EDUCATION

SPONSOR: Baker

This bill changes the laws regarding home school education.

The bill prohibits the local prosecuting attorney from reviewing home school records without reasonable suspicion of a violation of law. A public school must keep confidential any individually identifiable information about children receiving home school education and parents of such children. The bill also repeals provisions regarding parents providing notice that their children will attend home school.

This bill is similar to HB 2467 (2018).
