

HB 1745 -- ANIMAL-DRAWN VEHICLES

SPONSOR: Kelley (127)

COMMITTEE ACTION: Voted "Do Pass" by the Standing Committee on Transportation by a vote of 13 to 1.

This bill requires an animal-drawn vehicle to maintain reflective material on its front.

PROPONENTS: Supporters say that the bill makes roads safer for everyone. It can be hard, especially in the evening, to see the animal-drawn vehicles until your vehicle is right up on them.

Testifying for the bill was Representative Kelley.

OPPONENTS: There was no opposition voiced to the committee.
