

HB 2200 -- PARENTAL CONSENT FOR COURSE MATERIAL RELATING TO HUMAN SEXUALITY

SPONSOR: Moon

Currently, public school districts and charter schools must notify parents of the basic content of their human sexuality course materials.

This bill expands the notification requirement to include course materials and instruction on sexually transmitted diseases and requires districts to receive parental consent in writing from a parent or legal guardian before a student is provided any course material or instruction.

This bill carries a penalty provision and violation is a class C misdemeanor. Additionally, in any legal proceeding related to a violation of this section, no entity directly or indirectly receiving any taxpayer funds shall provide any legal advice, counsel, or representation to any person or entity that violates this section.
