

HB 2234 -- INHALATION OF SUBSTANCES

SPONSOR: Black (7)

This bill make changes to existing statute prohibiting a person from intentionally smelling or inhaling the fumes of a solvent for the purposes of inducing certain symptoms.

The bill adds "inhaling the gases or vapors of a solvent" to the statute. The bill also adds "inhaling a chemical, reagent, refrigerant, or other substance to the statute". The bill adds "inhaling the fumes of a solvent for the purposes of causing hallucination".
