

HB 2311 -- PROVIDER-BASED FACILITIES

SPONSOR: Haffner

The bill prohibits a provider-based facility, which is a clinic or physician's office that operates under the ownership, administrative, and financial control of a hospital or health system and bills as an outpatient department of the hospital, from charging, billing, or collecting a facility fee for services provided to patients unless Medicare or Medicaid is the primary payor for such patient and the facility is allowed to charge the fee.
