

HJR 71 -- TOLL ROAD AUTHORIZATION

SPONSOR: Messenger

Upon voter approval, this proposed Constitutional amendment would authorize the expenditure of state funds by the Department of Transportation for use in constructing and operating toll roads approved by the federal government and the General Assembly on interstate or four-lane roads with the restriction that toll rates be set by the Missouri Highways and Transportation Commission subject to legislative approval and that tolls be collected only at the entrances to interstates or four-lane roads.

This bill is the same as HJR 15 (2019).
